Maximum Performance

Benefits

- 1 Increased work productivity and efficiency in surface preparation before, and after repairs.
- 2 Reduction of VOC's while dispensing bulk chemicals - eliminating the need for aerosol based products.
- 3 Compatible with waterborne cleaners and solvents.

For more information about Bioplastics visit our website www.fbs-online.com

Performance compression sprayer

(Wide range of compatible chemicals may be used with the sprayer, ask for details.)

- VITON -expert FKM/PA sealing materials and technical plastics
- Enclosed "End Cap" pump design

Acetone resistant compression sprayer

(Other chemicals compatible with EPDM may be used with the sprayer, ask for details.)

- EPDM/FPE sealing materials and technical plastics
- Enclosed "End Cap" pump design

for Chlorinated brake parts cleaners

(Other products may be used with approved specification, ask for details.)

- KPV/FPE sealing materials and technical plastics
- Enclosed "End Cap" pump design

for Engine Cleaners & Degreasers

(Other products may be used with approved specification, ask for details.)

- KPV-FPV/FPE sealing materials and technical plastics
- Enclosed "End Cap" pump design
- High output swirl cone

for Non-Chlorinated brake parts cleaners

(Other products containing Acetone, Toluene, Xylene, M.E.K., etc. may be used with the sprayer.)

- FPV/FPE sealing materials and technical plastics
- Enclosed "End Cap" pump design
